**RE: ENCROACHMENT FOR LOFTS AT PRINTERS SQUARE LOCATED ON
LADY AND PULASKI STREETS, COLUMBIA, SOUTH CAROLINA**

Dear Ms. Ardis:

Per our conversation today, I am forwarding you a set of civil plans and a written request for an encroachment approval for the items listed below:

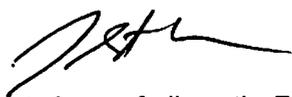

- 1) We wish to construct a trench drain at the entrance to the remote parking lot on Pulaski Street. The trench drain would capture storm water runoff from the parking lot and direct it to a storm drainage manhole located in Pulaski Street.
- 2) We are proposing to install three (3) water services that will tap an existing 24" RCP water main on Pulaski Street'
- 3) We are proposing to construct one (1) six (6") inch tap for a new fire hydrant. The new fire hydrant will tap into the existing 24" RCP water main on Pulaski Street.
- 4) We are proposing to tie into an existing storm drainage drop inlet on Pulaski Street with one (1) ten (10") inch roof drain.
- 5) We are proposing to construct a six (6") inch sanitary sewer service in the City of Columbia alley (TMS#08912-05-04).
- 6) We are proposing to pave the City of Columbia Alley (TMS#08912-05-04).
- 7) We will be demolishing an existing curb cut and four (4) trees on Lady Street and replacing them with a new curb cut that is in line with the City of Columbia Alley and the replacement of six (6) trees in the City of Columbia right of way around the proposed building.

Encroachment Approval

The above mentioned items all fall in the City of Columbia's Right of Way. I do believe some of the items can be approved at the staff level by City of Columbia personnel, but they stated it would be easier if we lumped all encroachments into a single package. If you have any questions or comments, please do not hesitate to contact me.
