All projects, loan or grant, require a minimum of 3 (three) bids from licensed commercial contractors.

Project Site Boundary: Program project site based upon individual Richland County tax map parcel boundary. The address of a building is searched and matched to the corresponding tax map parcel. If a building and its property expand over multiple contiguous parcels (side-by-side), owned by the same individual, the applicant is eligible for only one award. If an applicant owns more than one contiguous parcel (side-by-side) and each parcel has a designated address, the Façade Review Committee may consider, on a case-by-case basis, the possibility of multiple awards – one award for each parcel/address. Budget limitations of the program are a factor when making decision to ensure project funding is fairly distributed among all applicants.

INELIGIBLE Businesses: Residential Use Buildings; Government and/or Sub-component agencies, to include Public Educational Facilities; Franchises; Hotels; Motels; Liquor Stores; Convenience Stores/Gas Stations; Financial/Lending Institutions; National/Regional Chain Stores; Private Education Facilities; Private Membership and/or Fraternal Organizations; Businesses with 51% or more, of revenue from alcohol sales; and Adult oriented businesses.
